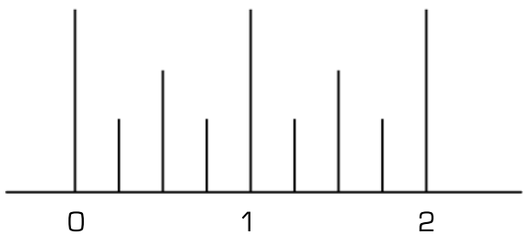
Nintendo Playchoice-10

Gun Holster Mounting Diagram

Printing Instructions:
In order for the diagram to be at the proper size, it needs to be printed at 8.5 x 14. Print this page on either Legal (8.5 x 14), or Tabloid (11x17) paper. Do NOT use regular 8.5 x 11 printer paper.

Important: Print using Adobe Acrobat. After the Print dialogue box appears, set the Page Scaling to None. If not, Acrobat will automatically reduce the size of this document and the mounting holes will not be aligned. Measure the ruler below to confirm that the document is to scale.



Position the printed document along the right edge of the service door, with the top of the document aligned with the top of the front panel. Fold over any extra paper on the right edge of the document.
